Professional Summary

Full-Stack Software Engineer with 3+ years of experience building scalable web applications using **React.js**, **Next.js**, and **Node.js**. Experienced in developing RESTful APIs, full-stack JavaScript solutions, and high-performance SaaS platforms in AI and blockchain environments. Strong focus on clean architecture, performance optimization, and Agile collaboration.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Material UI, Bootstrap

Backend: Node.js, Express.js, REST APIs, GraphQL

Databases: MongoDB, MySQL, PostgreSQL, Neo4J

DevOps & Tools: Docker, GitHub Actions, Jenkins, CI/CD, SonarQube, Git, Postman

Methodologies: Agile/Scrum, System Design, Unit Testing

Keywords: React.js Developer, Node.js Developer, Full-Stack JavaScript, MERN Stack, REST API, SaaS Applications, Web Development, Frontend React, Backend Node.js

Key Projects

TalentAI

AI-powered recruitment platform optimizing candidate evaluation.

- Built a scalable React/Next.js frontend and integrated automated evaluation APIs.
- Streamlined recruitment workflows and improved pre-screening efficiency by 40%.

Bullpost

AI-driven social media automation platform.

- Developed content generation and scheduling features using a full-stack architecture.
- Led a team of 3 developers and reduced publication time by 60%.

EcoSystem DAO

Decentralized crowdfunding and governance platform.

- Designed secure and scalable voting and funding modules.
- Enhanced transparency and community engagement.

91 Funds

NFT-based investment subscription system.

- Integrated smart contracts with a React/Web3 frontend.
- Enabled automated portfolio tracking and secure transactions.

Recut

Lightweight video editing platform for short-form content.

- Built a fast and intuitive user interface optimized for creators.
- Increased content production efficiency by 30%.

Other Projects: TON Platform, Token Pledge, Antlike

Professional Experience

TalentAI | Remote (Lithuania)

Team Lead & Full Stack Engineer

Nov 2025 – Present

- Leading the development team and driving technical decisions for an AI-powered recruitment platform.
- Designing and building scalable full-stack features using React.js, Next.js, and Node.js.
- Implementing intelligent candidate evaluation and automated screening systems.
- Collaborating with product and data teams to integrate AI models into the hiring workflow.
- Improving candidate pre-screening efficiency and optimizing skill-based matching.

Dar Blockchain | Tunis

Software Engineer (React.js / Node.js)

Oct 2022 – Present

- Developing and maintaining production-grade AI and blockchain platforms.
- Building scalable full-stack applications using React.js, Next.js, and Node.js.
- Optimizing CI/CD pipelines, reducing deployment time by 35%.
- Contributing to system architecture decisions and mentoring junior developers.
- Working concurrently on multiple SaaS products in distributed environments.

Fabskill | Tunis

Web Developer Intern

Feb 2022 – Jul 2022

- Developed a modern CV-building platform and improved recruiter workflows.

Talan | Tunis

Web Developer Intern

Jul 2021 – Sep 2021

- Built a prototype for medical record management and appointment scheduling.

Our Digital Future | Tunis

Web Developer Intern

Jul 2020 – Sep 2020

- Developed a responsive digital services platform improving accessibility.

Awards & Leadership

- **Winner — Hedera AI Agents Hackathon:** Designed an AI-blockchain automation solution.
- **Web3 Mentor:** Guided developers in smart contracts, dApps, and Web3 architecture.

Education

Esprit, Tunis

2017 – 2022

Engineering Degree in Computer Science — Web Development

Sijoumi High School, Tunis

2017

Technical Sciences Baccalaureate
